

# KIDS' ACTIVITIES AT ISLAND SHANGRI-LA

October 1 - 2, 2021

## STEM Workshop (CAN & ENG) by Mochy Group

Young talents can immerse in a creative learning experience through STEM activities through a DIY workshop led by Mochy Group, where they combine their knowledge in science, technology, engineering and mathematics by creating their own household item, such as a petite bedside lamp and a cyclonic vacuum cleaner.

**J5**

### Physics x Engineering Catapult #

**15:15 - 16:00**

**(3 – 5 years old)**

A workshop that combines creativity and application of engineering principles to let fresh engineers undergo a comprehensive, full-fledged training and build their own catapult, of which they will have to continue testing and enhancing until the best design is developed.

**S5**

### Petite Bedside Lamp

**14:00 - 15:00**

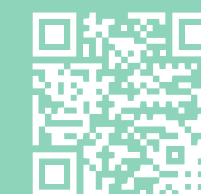

**(6 – 11 years old)**

A useful application to daily life in a workshop as junior engineers design and assemble their own bedside lamp by understanding the basics of electricity.

# Children are required to be accompanied by an adult

#### Notes

- STEM Workshop (by Mochy Group): 3 to 5 years old (J5) and 6 to 11 years old (S5)
- Each staycation booking includes one kid's activity. Should you wish to book additional activities, please contact our Family Concierge at (852) 2252 5131.
- As spaces for each activity are limited, please ensure you specify your preferred activity at time of reservation. All activities will be reserved on a first-come-first-served basis.
